

CRYSTAL EYE SERIES 10

Australia's first Extended Detection & Response (XDR) solution and the World's most powerful XDR platform

Our Crystal Eye 10 XDR appliance is the ideal solution to defend your small business or home-office from cyber threats supporting internet connections up to 100Mb/s with the full range of features enabled and actively protecting your network.

Crystal Eye 10 delivers powerful, flexible protection for up to 15 users across multiple devices. Combined with our range of integrated services, our desktop devices are an easy to deploy, easy to manage, effective security solution.

Through Crystal Eye's powerful threat intelligence system, the platform processes over 19-million Indicators of Compromise (IoC) per day using real-time visibility & analytics to enable automated actionable intelligence.

Full Network Control

Complete XDR Platform

8	Integrated XDR capabilities	4	Network Security Monitoring
C	Automated Actionable Intelligence		Advanced deep-packet inspection and decryption
?	Multi-layered security delivering defence in depth		Instant SOC & embedded SIEM solution
2	Built-In Compliance Feature Set		On-demand PCAP forensic analysis and logging
	Risk Assessment Reports		Gateway application whitelisting
	Vulnerability Scanning	ęęą	Extended log processing, retention & policy management controls

Firewall throughput:	1Gbps	The maximum capacity between two ports of the same bandwidth with no packet loss.
IDPS throughput:	400Mbps	The maximum volume of data that can be processed by the Intrusion Detection & Prevention modules with no packet loss.
True Security Throughput (TST):	100Mbps	The lab tested peak load with all security features turned on and processing a typical enterprise network profile: 76% http(s) web browsing, 12% real-time applications (VoIP, Video conferencing) and 12% other traffic types.

C SPECIFICATIONS

Processing System • Intel Gen 10 Pentium G5400 3.7Ghz 2 cores, 5201 marks speed • Chipset Z390, Socket 1151	Intrusion Prevention System Features 5 managed rule sets, comprising of 30k+ rules updated daily from the latest threats HTTP/TLS/DNS Logging Actions – Drop, Block, Reject, Pass 			
Memory Capacity	• Auto IPS Updates from Red Piranha threat intelligence sharing platfo			
RAM: 16GB DDR4 2666MHz	Protocol Anomaly Protection SCADA Aware			
Networking capacity	 VoIP and SIP protocol reporting Easy tuning in dashboards to reduce false positives 			
• 1 x Intel Gb WAN port • 1 x Intel Gb LAN port	Application Filtering Features			
· Wireless 802.11ac	· Layer 7 (Application) & Layer 8 (User) Control and Visibility			
Interfaces	 Inbuilt Application Category Database Visibility and Controls for HTTPS based micro-apps like 			
6x USB 3.1	Facebook chat, YouTube video upload			
2x USB 2.0	SD WAN Features			
teful Inspection Firewall Features ultiple Security Zones ication-aware and Device-aware Identity-based Access introl Policy iccurity Policies – IPS, Web Filtering, Application Filtering,	 TCP & UDP Tunnelling Authentication – Active Directory, LDAP, RADIUS, Local Multi-layered Client Authentication – Certificate, Username/Passwor Lightweight SSL VPN Tunnelling Client TCP based Application Access – HTTP, HTTPS, RDP, TELNET, SSH 			
Anti-virus, Anti-spam and QoS • Policy based Source and Destination NAT, Gateway	Bandwidth Management Features			
Specific NAT Policy	• QoS Policies			
· MAC & IP-MAC Filtering	Guaranteed & Burstable bandwidth policy			
Spoof Prevention	Application & User Identity based Traffic Discovery			
Gateway Anti-Virus & Anti-Spyware Features	Data Transfer Report for multiple Gateways			
• SSL Mismatch Detection	Networking Features			
Cloaked URL Detection	Automated Fallover/Failback			
Virus, Worm, Trojan Detection and Removal	• Interface types: Alias, Multisport Bridge, LAG (port trunking),			
Spyware, Malware, Phishing Protection Scans HTTP, HTTPS, FTP, SMTP/S, POP3, IMAP, IM, SMB, VPN Tunnels	VLAN, WWAN, TAP			
Customised Individual User Scanning	Multiple DHCP Servers support Supports HTTP proxy, Parent proxy with FQDN			
• Scan and deliver by file size	• Dynamic Routing: RIP v1&v2, OSPF, BGP			
· Block by file types	IPv6 Support: Dual Stack Architecture: Support for IPv4 and IPv6 Protoc IPv6 Route: Static and Source			
Gateway Anti-Spam Features				
 Inbound and Outbound Scanning Real-time Blacklist (RBL), MIME header check 	Administration & System Management Features			
Filter based on message header, size, sender, recipient	Web-based configuration wizard Role-based Access control			
Subject line tagging	• Firmware Upgrades via Web UI			
IP address Black list/White list IP reputation-based Spam filtering	• Web 2.0 compliant UI (HTTPS)			
	User Authentication Features			
Web Filtering Features • More than 130 categories	Internal Database Microsoft Active directory connector			
• Auto category updates	MICrosoft Active directory connector Internal active directory server			
• Exception list				
· IP or hostname based	Storage System/Optional Extended Storage (max)			
Controls based on URL, Keyword and File type Protocols supported: HTTP, HTTPS	240GB NVMe/4TB SSD			
Block malware, Phishing, Pharming URLs				
Block java Applets, Cookies, Active X, Google Cache pages	Dimensions			
Data leakage control by blocking HTTP and HTTPS upload Banned phrase list, YouTube for Schools	W x Dx H 280mm(w) 300mm(d) 80mm(h)			
• Banned phrase list, You lube for Schools • Custom Denied Message per Web Category	Weight 5Kg			
SD WAN Support	General Details			
IPSEC VPN for site to site communications	1 x HDMI port, x2 USB 2.0, x5 USB 3.1 type A Gen 2 10Gbs x1 USB 3.1 type C Gen 2 10Gbs			
Authentication – Active Directory, LDAP, RADIUS,	6Gb/s SATA 3 storage subsystem			
• Multi-layered Client Authentication - Certificate, Username/Password	Voltage spike protection			
Lightweight SSL VPN Tunnelling Client TCP based Application Access – HTTP, HTTPS, RDP, TELNET, SSH	802.3az (Energy Efficient Ethernet) support Certifications: FCC, CE			
Al and Automated Actionable Intelligence	Other add-on options			
• Al rule matching to detect anomalies in network traffic	Wireless Module for WIFI Application			
utomatic defence rules from over 19 million IOC's processed daily				
• Machine learning smart detection of network based SSH attacks	Power Input Voltage 110 VAC/220-240 VAC			
End Point Application Whitelisting				
· Easy Device application mapping				

AUTOMATED DETECTION

AUTOMATED

PROTECTION

AUTOMATED RESPONSE

Red Piranha

· Easy Device application mapping

- Ability to whitelist known good device Applications from the gateway
